**The University Hospital Center Zagreb, is the largest health institution and the National Referral Hospital in the Republic of Croatia. The department of vascular surgery has a broad history and experience in invasive surgery dealing with the most difficult and demanding vascular pathologies. Our vascular team also has a special collaboration with the interventional radiologists who perform endovascular procedures. Together, we make a team dedicated to providing our patients with the most modern and evidenced based care. Our hospital also has a specialized vascular laboratory and vascular tissue bank. We welcome and encourage anyone who is interested in joining our team to do so. For any questions please contact us.**
