Welcome message

The Department of Vascular & Endovascular Surgery of Semmelweis University offers a wide range of procedures, including open and endovascular carotid, peripheral and hemodialysis access surgery and open aortic reconstruction surgery procedures. Because of our excellent technical and personal conditions our Clinic is outstanding among the other institutes in Hungary with highest level of progressivity in vascular & endovascular surgery. This makes us a special training centre. We are looking forward to share our knowledge with those willing to learn and practice excellence.
