

Dear Colleagues:

For the last 3 years I had the honor to be part of the Program Committee of the ESVS as EVST representative.

Taking part of the decision-making process regarding the planning, the design and the organization of the ESVS annual meeting is a key role for the members of EVST and all the trainees across Europe.

Trainees represent a very important share of the ESVS annual meeting public and their voice and opinion must be heard and reflected in the way meetings are conceived.

As an EVST representative you have to actively participate in the several meetings of the PC where you get the chance to suggest content, discuss any initiative and raise the attention to any important issue that could improve the annual meeting.

Since my term as EVST representative in the PC is coming to an end next September, I encourage all my colleagues to take a step forward to cover this vacancy and enjoy a very enriching experience working side by side with the leaders of our society in the “back-stage” of the most important annual event of ESVS.

Best Regards,

Bahaa Arefai
